

Gabriel Ruiz González
Opossum Studios Founder & CEO

Gabriel R. González, a Melilla native and entrepreneur always linked to technology and a specialist in photogrammetry, found in Virtual Reality a new way of telling stories. He is a faithful defender of the mixture between Virtual Reality and art to create new ways of spreading our heritage and therefore our culture. He defines himself as a builder in VR, in fact, he says of himself: "I only make rocks in VR".

In addition to her specialization in spaces, she has participated in various projects on gender equality and the dissemination of customs to young people, always from the perspective of Virtual Reality.
